Loving Your Skin

FACE CARE

THE NEW FACE CARE BY PRIMAVERA

*PRIMAVERA Face Care represents
a loving, caring and appreciative
interaction of humans with nature.
A gift to our uniqueness, it is
skincare which helps our own beauty
to shine and sustain itself – from
the inside out.*

Life is unique. It challenges us and also allows us to grow – day in and day out. Through our skin, we gain a better understanding of ourselves and every loving touch caresses our soul. In those special moments when we devote ourselves to our skin, care for and pay attention to it, we come to appreciate our own, completely individual, natural beauty.

And because every day feels somehow different and each day comes with a new skin feel, our face care products can be used in a new and individual way, again and again. Therefore we meet the natural needs of our skin sensitively and effectively in each and every situation. The PRIMAVERA Goddess of Spring that graces the design of our new Face Care represents natural sensuality and the magic of self-discovery. As certified Natural Beauty with vegan ingredients of overwhelmingly organic origin, our face care represents mindfulness, appreciation, and treating ourselves with loving care.

PRIMAVERA Natural Beauty is our declaration of love for we humans and nature. It is the link in a natural cycle that draws on nature and, in the process, helps conserve it for the future. The new Face Care is our precious gift and the result of decades of living, thinking, and acting in close connection with nature. As aromatherapy pioneers, we have incorporated our deep-seated knowledge of essential oils and the effective power of pure and natural plants in our new Face Care compositions. They combine our understanding of the impact plants can have and how they can accommodate the skin's needs.

The new Face Care will make you glow!
